

4. MediCare – Hospital Appointment Booking App

Overview

MediCare is a simple mobile healthcare application designed in **Figma** that allows patients to search for doctors, view doctor profiles, select appointment dates and times, and book appointments.

Screens

- **Login** – Hospital logo, email, password, and login button.
- **Doctor Search** – Search bar, specialties, filters, and doctor cards.
- **Doctor Profile** – Doctor photo, specialization, experience, fee, and available slots.
- **Book Appointment** – Doctor details, date selection, time slots, and booking button.
- **Confirmation** – Patient details, doctor, date, time, and appointment ID.
